Plant Course

What should you expect?

The presentations at the end of the course are a way to draw together the learning you have received and demonstrate what you are taking away from the course. To make the most of this you can expect:

- A panel of experts - they will listen to your presentations and ask questions afterwards.
- Detailed feedback - each panelist will fill in a feedback form for you which we will collate and send back to you full of constructive comments.
- Funding available - if you are with the Diocese of London these presentations are your first step to get funding for your plant.
